

# SERVING THOSE WHO SERVE

## BACKGROUND

The On-Site Academy is a nonprofit, short-term intensive treatment and training center for rescue personnel who may be temporarily overwhelmed by the stress of their job. We have existed for the past 30 years for one purpose. We aid men and women on the front line who care for our society. Whether it is firefighting, law enforcement, pre-hospital care, or corrections, we know these jobs give a lot but can also take a lot from a family's health and spirit. We are here to provide the proper nurturance for those who give and have given so much of themselves. Also, to provide assistance to families who have supported loved ones throughout their service, sometimes including the ultimate sacrifice.

## VALUES

Our values have been solidly based on two movements although guests do not have to ascribe to either. They are "Critical Incident Stress Management" and the International Critical Incident Stress Model to manage disruptive incidents and cumulative stress, along with the time-honored brother/sisterhood of Alcoholics Anonymous. Our values are based on strict confidentiality, humility, and a genuine desire to help without judgment. Finances never prevent our guests from receiving that help. We believe they have already paid the price.

## GOALS

Our goal at On-Site is to accelerate recovery. Available on a continuous basis, the On-Site Academy is dedicated to maintaining the health, safety and wellbeing of rescue personnel and their families. If a responder feels that he/she is ready to retire, we can help to assure our guests do not leave their careers feeling "broken" but healthy and proud. We do, however, have a high back-to-duty success rate and can aid responders to return fully functioning to their chosen career.

# GARDEN OF HONOR AND REMEMBRANCE

**MEMORIAL BRICK PROGRAM**  
A RESPECTED PLACE TO HONOR OUR  
LOVED ONES FOR THEIR SERVICE

# ADOPT-A-BRICK

At On-Site, we strive for what works for each responder. We provide a dedicated level of care in a home-like, pastoral setting of comfort. As the needs of our emergency personnel grow, our site must grow to accommodate their needs. This includes renovations to our current facility in addition to converting our beautiful post and beam barn into a training center and family visitor center.

Last year we broke ground on our Garden of Honor and Remembrance which will consist of a beautiful granite monument in honor of all our responders. Surrounding the monument is a walkway of bricks that is embellished with benches and planters. All these items are available for purchase in memory or honor of a friend or loved one who has served or is serving their community in the public service field. The garden is near the facility, placed in a natural woodland setting for privacy and peace while reflecting.

## SECURING OUR FUTURE

All funds raised from our Garden of Honor and Remembrance will be designated to the renovations of our facility and the barn conversion.

The donation for each 4" x 8" engraved brick is one hundred and fifty dollars (\$150).

The donation for each bench is two thousand five hundred dollars (\$2,500).

The donation for each planter is one thousand five hundred dollars (\$1,500).
